# Frequently asked questions

---

- **What if I have more than 6 units deficiency?**

*You may only enroll maximum of 3 units plus the 6-unit practicum.*

- *If the deficiency is a prerequisite to the practicum, the student must sign a waiver that essentially states that if he/she fails the prerequisite course, the practicum shall be deemed invalidated. In any case, please consult your department chair (format of the waiver is available at the dean's office).*
- *If the deficiency is not a prerequisite, there is no need for the said waiver*

*The other 3-unit deficiency may be enrolled as an overload either in the 1<sup>st</sup> semester or 2<sup>nd</sup> semester, depending on when the said deficiency is offered.*

- **Must I be informed of the date and time of my practicum adviser's visit?**

*You must always expect that the practicum adviser will visit anytime after you have submitted your complete documents. At best, the practicum adviser will inform you of a period within which you will be visited (i.e., within the week of July 6-10, etc.). In case you will be absent on the date of his/her visit, please inform your adviser ahead and request him/her to inform you of his/her visit after he/she has done so.*

- **What if I submit my documents beyond the 10 calendar days?**

*You are deemed in violation of the guidelines and shall be correspondingly penalized thru point deduction. Worse, you shall not be assigned a practicum adviser within the period of your OJT.*
